Dear Mr & Mrs. Woods:

Thank you for contacting me on this important issue. I agree with you that it is vital for Congress to do everything it can to ensure the extension of this important program that enables American's to afford health insurance.

I have strongly supported the Health Care Tax Credit (HCTC) program in The Trade Adjustment Assistance Health Coverage Improvement Act, including the changes that were passed as part of the American Recovery and Reinvestment Act of 2009. I want you to know that I support extending the program and maintaining the level of the tax credit to the current 80% of certain health insurance premiums.

I am working on ways to extend this program beyond December 31, 2010 and will keep you apprised of our efforts.

Thank you again for writing. Please continue to be in touch on issues of concern.

Sincerely,

Sander Levin
